

Plymouth Church, United Church of Christ

87 Edgell Rd. Framingham, MA 01701

While drilling wells is one of the most efficient and economical ways to secure clean water, the costs still place a strain on the local economy. A completed well costs \$3,000. Individuals or organizations who wish to finance a local well can make a huge difference in the quality of life in a community.

Please make your check out to Plymouth Church UCC and in the memo line write "African Mission Fund".
Thank you for your support.
